+92 302 6622840

Dynamic Sr. Mobile Application Developer with over 6 years of experience in mobile app development, specializing in Android native (Java/Kotlin), Flutter and Dart. Proficient in building high-quality applications, including payment integration and progressive web apps. Successfully contributed to projects like the Yalla Super App, enhancing user engagement. With a solid understanding of RESTful APIs and Agile methodologies, a strong ability to collaborate with cross-functional teams to deliver innovative solutions. Ready to bring unique skills to Codepul and drive impactful applications.

Willing to relocate: Anywhere

Work Experience

SENIOR FLUTTER APP DEVELOPER

Azzurri tech-Lahore

February 2025 to Present

• 1LinkHealth App - Developing a medical app in Flutter using RESTful APIs, featuring doctor

(in-person/vidco) appointments, hospital bookings, emergency/ambulance calls, pharmacy c-commerce, and

Stripe-powered in-app purchases. Utilized GetX, Riverpod, and BLoC for scalable state management.

• WannaPlay App - Built a social tennis app using Flutter and Firebase Firestore, allowing users to find nearby

players, coaches, and clubs, and challenge others for matches with real-time updates and location-based

matchmaking.

• WorldForAll App - Created an accessibility-focused app to help individuals with disabilitics find and

connect with nearby inclusive places and services, promoting mobility and independence.

Lead mobile application developer

Paysky Digital Payment Solutions-Islamabad

August 2022 to Present

• Engineered both Android native applications using Kotlin and Flutter-based mobile and web apps.

• Spearheaded the development of the Yalla Super App (Native) and Yalla PWA (Flutter), integrating diverse payment methods and various mini modules.

Flutter Developer (Project Based-Remote)

EProjectConsults-Sicily, Italy

October 2024 to November 2024

• AroundEU App - Conceptualized and developed a project showcasing Erasmus+ traineeships, incorporating features such as group chats, media sharing, and notifications.

• Far&Com App - Formulated an educational application aimed at students to augment reading techniques and enhance academic performance.
